B	Inspection standard
B 001-2017	Electrical test method
B 002-2018	Appearance, structure and other test methods
B 003-2016	Test method for Tapes
B 004-2016	Test method for rubber moldings
C	Product standard
C 3101-2017	Outdoor use Pothead for 6600V XLPE Insulated Power Cables
C 3102-2016	Cubicle use Termination for 6600V XLPE Insulated Power Cables (Molded stress cone type)
C 3103-2016	Indoor Use Termination for 6600V XLPE Insulated Power Cables (Molded stress cone type)
C 3104-2016	Outdoor use termination for 6600V XLPE insulated power cables (Rubber bushing type)
C 3105-2016	Outdoor use termination for 6600V XLPE insulated power cables (Molded stress cone type)
C 3201-2016	Straight through joint for 6600V XLPE insulated power cables (push on type)
C 4101-2015	Cubicle use Termination for rated voltages from 3300V up to 11kV XLPE Insulated Power Cables (taping type)
C 4102-2019	Indoor use Termination for rated voltages from 600V up to 11kV XLPE Insulated Power Cables (taping type)
C 4103-2015	Outdoor use Termination for rated voltages from 600V up to 11kV XLPE Insulated Power Cables (taping type)
C 4104-2018	Indoor use Termination for 600V, 3300V and 11kV XLPE Insulated triplex Power Cables (taping type)
C 4201-2016	Straight through joint for rated voltages from 600V up to 11kV XLPE insulated power cables (taping type)
C 4201S-2016	protective layer insulation Straight through joint for rated voltages from 3300V up to 11kV XLPE insulated power cables (taping type)
C 5101-2019	Indoor use Termination for 22kV XLPE insulated power cables (rubber bushing type)
C 5102-2019	Outdoor use Termination for 22kV XLPE insulated power cables (porcelain bushing and taping type)
C 5103-2018	Outdoor use Termination for 22kV XLPE insulated power cables (porcelain bushing and molded stress cone type)
C 5104-2019	Indoor use Termination for 22kV XLPE insulated power cables (porcelain bushing and taping type)
C 5105-2018	Indoor use Termination for 22kV XLPE insulated power cables (porcelain bushing and molded stress cone type)
C 5201-2018	Straight through joint with metallic Joint shell for 22kV XLPE insulated power cables (Taping type)
C 5202-2018	Straight through joint for 22kV XLPE insulated power cables (Push on type)
C 6101-2015	Indoor use Termination for 33kV XLPE insulated power cables (porcelain bushing and molded stress cone type)
C 6102-2015	Outdoor use Termination for 33kV XLPE insulated power cables (porcelain bushing and molded stress cone type)
C 6201-2015	Straight through joint for 33kV XLPE insulated power cables (Push on type)
D	Parts standard
D 001-2018	Soldering-Type sleeve
D 002-2018	Soldering-Type Terminal Lug (Copper tube)
D 003-2018	Compression-Type Terminal Lug (Copper tube)
